The Public Works Department is responsible only to give periodical Meter Readings to the Municipality The Municipal Office prepares the bills and it is the responsibility of the Municipality to take steps for the recovery of arrears of water revenue The services of dis-connection staff are utilised when water revenue is in arrears, and they cannot be normally considered as part of the maintenance staff of the Water Supply Division It is also seen from records that the disconnection staff are working directly under the Municipal authorities It, therefore, seems that the Public Works Department or the Government cannot be asked to bear any portion of the cost of the disconnection staff, which is wholly engaged in the interest of collection of revenue due to Municipality

Does this relate to my proposal for 27 lakhs? Kindly see 1948- for details.

4) The proposal of the Mysore City Municipality is that the cost should be borne by the City and the Government in the proportion of 2:1 The Chief Engineer for Irrigation has opined that as the staff is employed wholly for the benefit of the City and it is also working under the City the entire cost should be borne by the City staff The proposal of the City is based on the rates sanctioned in the Revenue Code of 30 Lakhs 67 Lakhs for orders (on the last occasion the Chief Engr had agreed with the proposals on his behalf — Ref — paras in the Collection put up)

5) The President, Supreme Court has only asked for a continuance of the arrangement approved in the 30 dated 30 & 47 / 10 & 17. There is no reason why that policy should be changed this year. The drainage staff as considered as a part & parcel of the main sewerage & the cost thereof met in the usual ratio of 2 : 1 by the City & the Govt. The amount to be paid comes up to Rs 870 for the period from 1.5.48 upto 30.6.1949, so far as the Govt shares concerned. Hence the proposal may be sanctioned in consultation with the Financial Adviser (Revenue) for 10/10/48
